Re: Approval of Response to Division Order 99A, Hiawatha Coal Company, Hiawatha Complex, ACT/007/011-DO99A, File #2, Carbon County, Utah

Dear Mr. Finley:

The Division has reviewed your September 13, 1999 submittal which was made in response to Division Order 99A. We have determined that the requirements of the Division Order have been met. The information you have provided is hereby approved for insertion to your Mining and Reclamation Plan. You will need to submit 7 clean copies to the Division for distribution purposes by no later than October 29, 1999.

While the information that you submitted provides the necessary documentation and is approved for insertion to your plan, this does not alter the postmining land use of the mine or approve the retention of structures for historical purposes. An alternate postmining land use change would need to be approved if the mine intended to leave any structures in place. At this time, Division Order 99A is considered to be completed.

Thank you for your help in completing this action. If you have any questions, please call me or Susan White.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
